

Urbanscape Sedum-mix Blanket

May 2014

Description

The biodegradable Urbanscape Sedum-mix blankets comprise ten to twelve different species of Sedum. The blankets boast at least 95% coverage upon delivery. The sebaceous sedum plants are adept at storing water in their leaves and are therefore extremely suitable for varying weather conditions. In accordance with FLL Guidelines for the Planning, Execution and Upkeep of Green-Roof Sites.

Installation

- Gently roll out the Urbanscape Sedum-mix blanket crosswise onto the Urbanscape Green Roll.
- Start with the flap at the top. Check the position of the blanket before rolling out.
- If necessary, the blanket can be cut to the right size by scissors or a hook cutter.
- The vegetation layer must cover the total area of Urbanscape Green Roll. In case of installing gravel on the edges make sure that non vegetation area is at least 20 cm from the edge of the green roof.
- We have developed the Urbanscape nutrients for the best growth results of your green roof. Fertilize the vegetation layer with the nutrients 1 or 2 times a year.
